FLASCO is bringing together leaders in **cancer disparities & health equity** to advance the understanding of and promote their elimination.

Cancer disparities represent a significant public health problem in our state and country.

LEARNING MODULES

Professionals from academia, industry, and the community are coming together with the shared mission of **closing health equity gaps** and developing and **sustaining diversity and inclusion efforts in the health system of Florida**. Together they will promote the exchange of novel ideas, discuss the latest findings in the field, and stimulate the development of new research, advocacy, and policy on cancer disparities.
